STORAGE TANKS

Manufactured using superior grade raw material, we can fabricate various types of storage tanks for various industrial applications. Completely checked for efficient usages, we offer these tanks in various sizes and specifications. Our range of leak and rust proof storage tanks can also be customized as per the client's preferences.

Underground Storage Tanks

Above Ground Fuel Storage Tank

Water Storage Tanks

Industrial Storage Tanks

INDUSTRIAL TANKS

We manufacture various sizes of industrial tanks keeping into consideration the demands of different clients. Fabricated from finest quality of stainless steel, mild steel and other materials, these tanks are available in round & square sizes.

Dished End Tank

Cylindrical Tanks

MS Cylindrical Tanks

Sludge Tank

PLATE ROLLING MACHINES

We are offering highly efficient plate rolling machines which are widely used in various industries. Our manufactured plate rolling machines are of precision designed and can be available at market leading prices. Our range contains plate rolling machine without pre bending and plate rolling machine with pre bending.

Plate Rolling Machine

Industrial Plate Rolling Machines

Hydro Mechanical Plate Rolling Machines

Electro Mechanical Plate Rolling Machine

FABRICATION JOB WORKS

We offer job work for hand moulding to our clients. All the skilled labors we offer for the work are well versed with the operations of machine and are capable of making products as per the requirement of the client. The job work is offered to clients at the most competitive prices.
